

Sped Document with links for websites

1. Being a part of Mid-State Education District provides our district with a strong network of collaboration and specialized support that enhances the educational services we are able to provide to students and families. As one of five member districts, we benefit from shared expertise and resources, particularly through comprehensive special education support services. Mid-State also provides important oversight and guidance related to due process requirements, helping ensure that our district remains in compliance and that students' rights and educational needs are appropriately addressed. Through ongoing collaboration, communication, and shared problem-solving, Mid-State works alongside our staff to strengthen programs and services. In many ways, Mid-State serves as an extension of our district, allowing us to access specialized knowledge and resources while maintaining our commitment to providing high-quality educational opportunities for every student.
2. Special Education Director, Lisa Darveaux, ldarveaux@midstate.k12.mn.us, 320-631-2515/320-583-5344
