- 9.3. Busing discussion
- 9.4. Para hirings, 2 needed- 1 to replace from last year and one for ADSIS work

**10. Reports**

- 10.1. [PK-12 Principal Report](#)
- 10.2. [Activities Director Report](#)
- 10.3. School Board Committees
  - 10.3.1 [Meet and Confer](#)
  - 10.3.2 Technology Proposals

**[Option 1](#)**

Option one includes:

- Monthly fee for renting six Tech Check owned Cisco power over ethernet switches to get you by with reliable switches for the year.
- Tech Check check will handle warranties and support the switches during this period.

Again, this is just for loaning/supporting the switches for the year.

**[Option 2](#)**

1. The Cisco switch rental (same as option one)
2. Professional services for bringing all critical network and security infrastructure up to date prior to the start of the upcoming school year.

#### Fortinet Firewall Security Firmware Updates

- Ensure the firewall is running the latest stable firmware

#### Network Switch/Wireless Controller Firmware Updates

- Update core and edge switches to recommended firmware levels
- Verify network stability and functionality after updates
- Update wireless controller and dependent APs to the latest supported release
- Confirm wireless connectivity post-upgrade

#### Server Firmware Updates (Eight Virtual Servers)

- Update server firmware
- Validate server health and functionality after updates
- Does not include ExacqVision server.

All updates will be scheduled and performed during agreed maintenance windows to avoid any disruption to summer activities.

### **Option 3**

This option is designed to take the technology burden off your plate, especially as you're being tasked with more responsibilities. With this agreement, you can rely on us to proactively manage and support the district's network, ensuring everything runs smoothly.

Here are key highlights:

- This covers management on your eight servers, firewall, cisco switches and wireless controller.
- We will install a SentinelOne agent that includes a SOC which is a live team of cybersecurity experts actively monitors and responds to threats in real time, not just automated alerts.
- Keep all network equipment updated with the latest firmware and security patches.
- Tech CHeck will waive the \$5,400.00 rental fee if moving forward with the contract.
- We'll allow a 90 day notice of contract termination, if a new Superintendent is hired and you have more capacity to support the network internally.

- These services will be eligible for USAC funding during the 2026–2027 school year (the new five-year E-rate cycle), reducing costs by up to 70%. Note: server management is not E-rate eligible.

Chromebooks to be ordered 30 devices, 8,336.00 recommend purchasing soon  
Macbooks for staff are in

Going to need para help to get everything set up for fall

Fobs are partially set up will be back at the beginning of August to finish and train
